REMARKS

The figures of births and deaths of India shown in this statement for week ending the 23rd February 1957 relate to 113 towns with an estimated population of 14,528 thousands. Information about Andhra Pradesh, Assam, Bihar, Bombay Pondicherry, Rajasthan, Madhya Pradesh and West Bengal could not be included. The total number of towns is 318 and their population is 41,584 thousands. Thus 36% of the total number of towns representing 35% of the total population is

covered in this statement. The number of births and deaths recorded in these towns were 8,847 and 3,673 representing birth and death rates of 31.7 and 31.1 respectively.

No town recorded a high death rate of 50 or above per thousand of population. The following table gives the position by States.
